

NEWSLETTER

FROM THE DIRECTOR

One thing I love about the school is the way it has become so much more than I could ever have imagined at the start. There are prerequisites to sound growth, of course—staying focused on our mission, keeping the excellence of participants' educational experiences as our first priority, and operating on a sound financial basis. Fortunately, with the guidance of an

experienced Board of Directors, the Center has managed all of these. So it is with more pleasure than surprise that I report that 2007 has been another stellar year. Among other measures, enrollment scaled new heights, the Messler Gallery drew record attendance, and the Studio Fellowship program attracted ever-stronger applications.

For all its success, the Center is still a work in progress. Good ideas, and the willingness to

implement them, continue to come from faculty, alumni, friends, and the Board of Directors. For example, as reported in this newsletter, instructor Teri Masaschi has offered to expand her course offerings at the Center in order to address an insufficiency of finishing instruction nationwide. And alumnus Jerry Axelson and his wife, Nancy Wilson, have expanded the scholarship program they initiated last year.

Likewise, our Board of Directors has completed a formal planning study and committed to the next major phase of the school's advancement. This will consist of three initiatives that directly address the prerequisites for sustainable, sound growth mentioned above. Specifically, these initiatives will ensure the continuing excellence of our faculty through more equitable compensation, bolster the creative ferment on campus with a Visiting Artists program, and extend the school's mission to a broader audience through needs-based scholarships. More about this in upcoming newsletters, as you may imagine!

One of the pleasures of a small, not-for-profit school such as the Center for Furniture Craftsmanship is that it is an organic community where one person's contribution can have a significant impact on the excellence of the whole. As always, we welcome your ideas, your participation, and your support!

NEW SCHOLARSHIPS

Three scholarship opportunities will be available for our 2008 Workshops—two through the generosity of alumnus Jerry Axelson and his wife, Nancy Wilson, and one through the Furniture Society in partnership with Powermatic.

Last year, Jerry and Nancy funded a full scholarship that allowed a promising student from the Maine Technical College system to attend a two-week workshop, all expenses paid. This year they are doubling their gift so that two students may receive scholarships. "We were so pleased with last year's recipient and the great learning experience he had," says Jerry. Recipients of Axelson scholarships are selected by faculty at designated technical schools and colleges.

The third scholarship opportunity is being made available through the Furniture Society in partnership with Powermatic. Underwritten by Powermatic, it will cover the costs of tuition for a two-week workshop, housing, and meals, and include a stipend for travel. Deadline for applications is February 1, 2008. To apply, students must be currently enrolled in a full-time educational program or in an apprenticeship program of six months or longer. Full details are available online at www.furniture-society.org. The scholarship selection panel will include representatives from Powermatic, The Furniture Society and an academic institution.

The Furniture Society is a nonprofit organization whose mission is to advance the art of furniture making by inspiring creativity, promoting excellence, and fostering an understanding of this art and its place in society. Powermatic has manufactured high performance, durable woodworking machinery for over 85 years.

FINISHING JUST STARTING

Finishing expert and author Teri Masaschi will expand her popular course offerings at the Center for Furniture Craftsmanship for 2008. For the past several years, Teri's two-week FINISHING course has been the first workshop to reach full enrollment. Next summer, in addition to Finishing, she will also offer a two-week RESTORATION AND REPAIR course and a one-week class called HAND APPLIED FINISHES.

Looking ahead, the Center and Teri are exploring a more extensive relationship through which Teri will offer an exclusive, summer-long series of finishing courses. Last Spring's newsletter announced the purchase of an adjacent parcel of land where we plan to construct a dedicated finishing facility, a small metalworking shop, and a garage in about two years. That new finishing classroom will make it possible for Teri's teaching role at the Center to expand significantly.

"No other woodworking school offers a coherent finishing program and there's a tremendous need for it," says Teri. "I'm delighted the Center is stepping up to the plate to create a comprehensive program that will teach professional finishing skills in a manageable workshop format."

Teri Masaschi will be offering a larger variety of finishing workshops at the Center over the next few years.

MESSLER GALLERY NEWS

CURRENTLY SHOWING

FAR FROM THE TREE

September 14, 2007 – November 22, 2007

Far From The Tree presents an insider's history of woodturning's emergence as a vibrant artistic form over the past sixty years.

The show's curators are Jacques Vesery, from Damariscotta, Maine, and Kevin Wallace, from Los Angeles, California. Vesery is a leading wood artist with an international reputation. Wallace is an independent curator, author, and Director of the Beatrice Wood Center for the Arts in Ojai, California. Together, they take a fresh look at the field's roots and the steady expansion of woodturning toward an engaging new approach to contemporary art.

At the center of the exhibit are works by now-deceased, pioneering artists Bob Stocksdale, Rude Osolnik, Mel Lindquist, James Prestini, and Ed Moulthrop, who focused on the natural beauty of wood by utilizing simple vessel forms. From that core radiates the work of influential contemporary artists who have expanded the language of the medium in new directions.

Maine Woodturners at a recent talk and slide show by Far From the Tree co-curator Jacques Vesery in the Messler Gallery

Following its appearance at the Messler Gallery, the exhibition will be on display at the American Association of Woodturners Gallery in St. Paul, Minnesota from January 11 – April 18, 2008, and the Ohio Craft Museum in Columbus, Ohio from July 13 – August 30, 2008. Subsequently it is scheduled to appear at the Southern Ohio Museum in Portsmouth, Ohio.

Contemporary American makers represented in *Far From The Tree* include Michael Brolly of Bethlehem, Pennsylvania; Christian Burchard of Ashland, Oregon; Gorst du Plessis of New Orleans, Louisiana; David Ellsworth of Quakertown, Pennsylvania; Harvey Fein of New York, New York; Ron Fleming of Tulsa, Oklahoma; Giles Gilson of Schenectady, New York; Robyn Horn of Little Rock, Arkansas; William Hunter of Rancho Palos Verdes, California; John Jordan of Antioch, Tennessee; Stony Lamar of Saluda, North Carolina; Michael Lee of Kapolei, Hawaii; Mark Lindquist of Glory, Florida; Bill Luce of Renton, Washington; William Moore of Hillsboro, Oregon; Michael Peterson of Lopez Island, Washington; Merryll Saylan of San Rafael, California; Betty Scarpino of Indianapolis, Indiana; Mark Sfirri of New Hope, Pennsylvania; and Alan Stirt of Enosburg Falls, Vermont. International exhibitors include Alain Mailland from France, Graeme Priddle from New Zealand, Richard Raffan from Australia, and Hans Weissflog from Germany.
